PROFESSIONAL SUMMARY

Results-driven Java Backend Developer with hands-on production experience in Spring Boot, JDBC, and MySQL. Engineered a full-stack Job Portal from scratch — delivering secure authentication, role-based access control, and live database integration. Mathematics graduate (B.Sc.) with sharp analytical thinking and a proven track record of debugging, performance optimisation, and Agile delivery at Aitrich Technologies. Ready to ship clean, scalable backend code on Day 1.

EDUCATION

Bachelor of Science (B.Sc.) – Mathematics Don Bosco

College, Thrissur (2022 – 2025) | CGPA: 6.517

- Studied core mathematical subjects including Calculus, Linear Algebra, Probability & Statistics, Real & Complex Analysis, and Numerical Methods.
 - Developed strong analytical thinking and problem-solving skills applicable to software development.
 - Applied mathematical concepts to logical reasoning and algorithmic thinking.
 - Gained hands-on experience in programming and database fundamentals.
-

TECHNICAL SKILLS

Languages: Java (Core & Advanced), SQL

Frameworks: Spring Boot, Spring MVC, Spring Framework, Spring Data, Spring Security

Backend: JDBC, RESTful API Design & Integration, OOP, MVC Architecture, Maven, JSON, Exception Handling, Multithreading, Jwt

Database: MySQL, PostgreSQL — schema design, CRUD

Testing: JUnit, Mockito, API testing, Postman

Frontend: HTML5, CSS3, JavaScript, TypeScript, Bootstrap 5, Angular

Tools & IDEs: IntelliJ IDEA, Eclipse, VS Code, Git, GitHub, Figma, Apache Tomcat,

Methodologies: Agile / Scrum, debugging, code review, Git Workflow

INTERNSHIP

JavaBackend Developer Intern– Aitrich Technologies, Thrissur(June 2025 - Present)

- Developed backend modules for **2 major applications**—**Job Portal System** and **Hospital Management System**—along with additional learning projects using **Java, Spring Boot, Spring Data JPA, JDBC, MySQL, and PostgreSQL**.
- Designed and implemented **50+ RESTful APIs** for authentication, job management, company management, hospital management, and other CRUD-based functionalities.
- Implemented **Spring Security** with **JWT-based authentication** and role-based authorization to secure backend APIs.
- Built CRUD functionalities using **Spring Data JPA** and **JDBC**, integrating with **MySQL** and **PostgreSQL**.
- Applied **MVC architecture** and a **3-layer architecture** (Controller, Service, Repository) to develop scalable and maintainable applications.
- Designed and managed relational database schemas to ensure efficient data storage and retrieval.
- Tested and validated REST APIs using **Postman**, while debugging and resolving backend issues during development.
- Collaborated with team members using **Git** and **GitHub**, following Agile development practices and sprint-based workflows.
- Currently developing responsive frontend interfaces using **HTML, CSS, Bootstrap, Angular, and TypeScript**.

PROJECTS

1. JobPortal System

- Developed a backend job portal application in Java enabling user registration, job posting, and job application management.
- Implemented CRUD operations using JDBC and MySQL for efficient storage and retrieval of user, job, and application data.
- Implemented JWT-based authentication and Spring Security to secure REST APIs with role-based access control.
- Structured business logic using reusable service classes, improving maintainability and scalability of the application.
- Currently working on frontend using HTML,CSS and Angular

2. Hospital Management System

- Developed a backend hospital management application with 3 core modules: Patients, Doctors, and Appointments.
 - Built 15+ RESTful APIs implementing CRUD operations using Spring Boot, Spring Data JPA, and PostgreSQL.
 - Implemented JWT-based authentication and Spring Security to secure REST APIs with role-based access control.
 - Followed a 3-layer architecture (Controller, Service, Repository) and validated API endpoints using Postman.
-

CERTIFICATIONS

- Certified System Analyst
- Core Java Developer
- Advanced Java Developer
- Certified SpringBoot Developer
- Certified Agile Practitioner
- Certified Software Engineering Beginner
- Certified UI UX Designer
- Certified Web Developer
- Junior software development analyst
- Certified Test driven Developer
- Certified Java script Developer
- Certified Advanced Angular Developer
- Advanced fullstack Developer
